Sorted your new rod license yet?

**Corporate event Friday 07/04/17
Lake closed, apologies**

Report -Week beginning April 3rd 2017

At Papermill this week fishing has been quite difficult at times due to very small fly hatches, not many anglers like fishing really small dries such as size 18-20 which is hard to get it sitting just right in the water. As the temperature rises larger hatches will be easier to match and to present to the hungry rainbows and browns, big fish have been seen but are just sitting tight, they should go soon with the warmer conditions. Best flies of the week have been, damsels, cats whiskers, black buzzers, goldhead hares ear, daddys and nymphs Jamie Marsh caught a superb 6lb 10oz rainbow on a green fritz.

We will be closed this Friday the 7th of April for a corporate event sorry for any inconvenience this may cause.
